

SIMPLE Q & A WEB APPLICATION

Tech Stack Used

Front End

- ◆ Vuejs 3 , pinia js, vuerouter
- ◆ Bootstrap 5
- ◆ template SB Bootstrap

Back End

- ◆ Api with laravel sanctum

FEATURE

- Authentication (login, register, logout)
- user can change/edit profil (photo, city, name)
- user can create/edit/delete (title, body, image) question
- user can create/edit/delete (body, image) answer from a question

GLOBAL QUESTION

In this page will show all question from all user

OWN QUESTION

The screenshot displays a web application titled "Dola Project". On the left is a dark sidebar with a menu labeled "HALAMAN" containing "Dashboard" and "Daftar Pertanyaan Saya". The main content area is titled "Daftar Pertanyaan Saya" and features a "Buat Pertanyaan" button at the top right. Below this is a table of five questions, each with an "Edit", "Detail", and "Delete" button. The questions are: "update", "coba", "test", "dfdf", and "efef", all categorized as "kategori : backend". Each question entry includes the text "Di buat oleh : user". At the bottom left of the sidebar, it says "Logged in as: user". The bottom right of the page contains the copyright notice "Copyright © Dola Project 2023".

Question Text	Category	Created By	Actions
update	kategori : backend	Di buat oleh : user	Edit, Detail, Delete
coba	kategori : backend	Di buat oleh : user	Edit, Detail, Delete
test	kategori : backend	Di buat oleh : user	Edit, Detail, Delete
dfdf	kategori : backend	Di buat oleh : user	Edit, Detail, Delete
efef	kategori : backend	Di buat oleh : user	Edit, Detail, Delete

in this page will show question only create by own user , and user can edit and delete the question
